Mr. Darwin Richardson Management Representative Vice President, Quality and Regulatory Affairs Medical Analysis Systems, Inc. 5300 Adolfo Road Camarillo, CA 93012

Re:

510(k) Number: K011548

Trade/Device Name: chemTRAK Platinum Comprehensive Liquid Assayed Chemistry

and TDM Control Levels 1, 2, and 3

Regulation Number: 862.1660 Regulatory Class: I, reserved

Product Code: JJY
Dated: May 16, 2001
Received: May 18, 2001

## Dear Mr. Richardson:

We have reviewed your Section 510(k) notification of intent to market the device referenced above and we have determined the device is substantially equivalent to devices marketed in interstate commerce prior to May 28, 1976, the enactment date of the Medical Device Amendments, or to devices that have been reclassified in accordance with the provisions of the Federal Food, Drug, and Cosmetic Act (Act). You may, therefore, market the device, subject to the general controls provisions of the Act. The general controls provisions of the Act include requirements for annual registration, listing of devices, good manufacturing practice, labeling, and prohibitions against misbranding and adulteration.

If your device is classified (see above) into either class II (Special Controls) or class III (Premarket Approval), it may be subject to such additional controls. Existing major regulations affecting your device can be found in the Code of Federal Regulations, Title 21, Parts 800 to 895. A substantially equivalent determination assumes compliance with the Good Manufacturing Practice for Medical Devices: General (GMP) regulation (21 CFR Part 820) and that, through periodic GMP inspections, the Food and Drug Administration (FDA) will verify such assumptions. Failure to comply with the GMP regulation may result in regulatory action. In addition, FDA may publish further announcements concerning your device in the Federal Register. Please note: this response to your premarket notification submission does not affect any obligation you might have under sections 531 through 542 of the Act for devices under the Electronic Product Radiation Control provisions, or other Federal laws or regulations.

This letter will allow you to begin marketing your device as described in your 510(k) premarket notification. The FDA finding of substantial equivalence of your device to a legally marketed predicate device results in a classification for your device and thus, permits your device to proceed to the market.

If you desire specific advice for your device on our labeling regulation (21 CFR Part 801 and additionally 809.10 for in vitro diagnostic devices), please contact the Office of Compliance at (301) 594-4588. Additionally, for questions on the promotion and advertising of your device, please contact the Office of Compliance at (301) 594-4639. Also, please note the regulation entitled, "Misbranding by reference to premarket notification" (21CFR 807.97). Other general information on your responsibilities under the Act may be obtained from the Division of Small Manufacturers Assistance at its toll-free number (800) 638-2041 or (301) 443-6597 or at its internet address "http://www.fda.gov/cdrh/dsma/dsmamain.html".

Sincerely yours,

Steven I. Gutman, M.D., M.B.A.

510(K) NUMBER - KO11548 510(k) Notification ● 16 May 2001 chemTRAK® Platinum Comprehensive Liquid Assayed Chemistry and TDM Control Levels 1, 2, and 3

## Statement of Indications for Use

chemTRAK® Platinum Comprehensive Liquid Assayed Chemistry and TDM Control Levels 1, 2, and 3 is intended for use as a consistent test sample of known concentration for monitoring assay conditions in many clinical laboratory determinations. Include chemTRAK® Platinum Comprehensive Liquid Assayed Chemistry and TDM Control with patient serum specimens when assaying for any of the listed constituents. The user can compare recovered
